## **Teacher Training**

# Our Story

I've always been interested in many different styles of yoga. Having a varied practice meant that I didn't fit the mould as a 'specialist niche' yoga teacher so had to make my own breaks.

I became business savvy and set up community classes, retreats, workshops. I taught real people whose bodies didn't bend or flex like a typical yogi's!

My clients ranged from stressed out corporate executives, to the over 65's to pregnant ladies to premiership footballers. This diversity of experience meant that I learned to think on my feet and adapt the yoga to meet the real needs of real people.

Despite the norm to pigeon-hole, I continued allowing my journey into yogic discovery to take a rich and diverse route. Even looking beyond the field of yoga and into other modalities such as positive psychology.

My exploration has involved over 20 years of self-practice, over 1000 hours of various yoga training immersions plus over 8000 hours of actual teaching.

Soon I discovered there were others like me, who love to embrace challenge and change. Together we pave a new approach and build our own community of creative, open-minded misfits amidst an ever more 'cookie cutter' yoga community.

Thus begins Real Flow Yoga.  
Our specialism is that we are adaptable, inclusive, 'keep-it-real' teachers.  
We are grounded yet intuitive and can flow between many yoga styles to meet the needs of our diverse students.

Our flow-state approach to yoga is what we impart with our teacher training course, to empower you to enjoy self-acceptance, honesty and freedom.

Keep it Real people and let things flow!"

# Testimonials

"I was blown away by the amount of content in such a short space of time. I had quite a large database of 'knowledge' in my mind already from my Pilates teacher training and continued learning, but I learnt so much more than I could've imagined. Allowing us to question things meant that we were encouraged to be free thinking and become better teachers instead of parrots. Spacing the course over a few months gave much more time to digest and expand upon what was taught in contact time. I cannot recommend the course enough! Thank

you Tammy!"

"It has been a pleasure taking part in the Real Flow Yoga TTC. The teachers are all so kind and provide a vast variety of knowledge and wisdom. The detail on anatomy and philosophy were superb. The amount I learnt over the 3 months is mind-blowing. The group of trainees are all such great friends to me and we all got along so well - like a big family. Portugal was intense and transformational, then the modules in the UK very information and boosts of more inspiring, motivational teachings. Thank you Tammy and the RFY team and trainees."
